

It was a privilege for me to be part of this opening of exhibition. I was really impressed with the heroic effort of Ms. Dina and Inj. Doukopol as was portrayed through this photographic exhibition. The building of a hospital in the mountainous areas of Pakistan is indeed a commendable job.

It also reflects the deep friendship between Pakistan ^{and} the Czech Republic. It's true that the ^{physical} distance does not matter between friendship.

I pray for the happiness and well being of the Czech people.
